Phil (PF) Sloan recalls (concerning "Unless You Care"): "Terry Black was the "Fabian" of Canada. I didn't really want to write for that type, but I gave him a song I intended for Elvis that I wrote by myself when I was

fifteen. We did have great musicians on that session.... Glen Campbell on guitar, Leon Russell on organ (track 1 only) and Hal Blaine on drums." Maybe Sloan remembers the wrong session Leon-wise? Sloan and Berri (The Fantasic Baggys) are the producers. There is an instrument on both tracks, that I think is a high strung guitar, but sometimes it sounds like an organ!

Leon is supposed to have played on other Black sessions.
